

Standard Metal Shelving

Our manufacturers make shelving in 25mm, 32mm and 50mm pitches, with a choice of bay widths and heights and a variety of colours and finishes. Shelving is available as a cantilever or 4 post design, and heavy duty reinforced variants can also be supplied.

All shelving systems supplied by us are fully tested and certified to relevant UK and European standards. 50mm pitch cantilever shelving is the industry standard for most large grocery retailers in the UK, and our system is fully compatible with other manufacturers' standard 50mm pitch shelving.

Standard Metal Shelving Equipment includes:

- Conceptual Product Design/ Store Layouts
- Liaison with Customers' in-house Design Teams
- Reverse Engineering/Value Engineering
- Technical expertise – weight loading and material substitution
- Standard catalogue or bespoke equipment
- Promotional features
- Integration of wire, glass, timber and acrylics
- Optional integrated power track/sockets
- Optional lighting and security features
- From supply only to a fully integrated project managed service

The above list of products and services is not exhaustive. If you are currently specifying metal shelving systems, please contact us today and see how we can help you get the best from your store.

Want to get the most from your display equipment assets whilst reducing your environmental impact? For retailers with ongoing refurbishment programmes, our service enables us to maximise the lifespan of your display equipment - please contact us for details.
